

Installation

Built-in Refrigeration

A complete installation service to give you peace of mind when buying your new appliance. We install and test your new product to ensure that it is performing at optimum levels and finally we demonstrate the basic functions.

Our Service

- Pre-Installation assessment if required
- We will fit the door furniture to your new appliance
- Level the appliance to ensure maximum efficiency
- Test the appliance to ensure maximum performance of all functions
- The installer will demonstrate the basic functions

What you need to check

- To ensure that your existing door furniture is the correct size for the new appliance
- To inform Bradburys as to whether your existing appliance is of fixed or sliding hinge design
- That there is enough space for the appliance
- To ensure that all existing wiring is safe and suitable to accept your new appliance
